PREMIUM HYGIENIC SOLUTIONS
For VR, AR & MR Headsets

CLEANBOX TECHNOLOGY

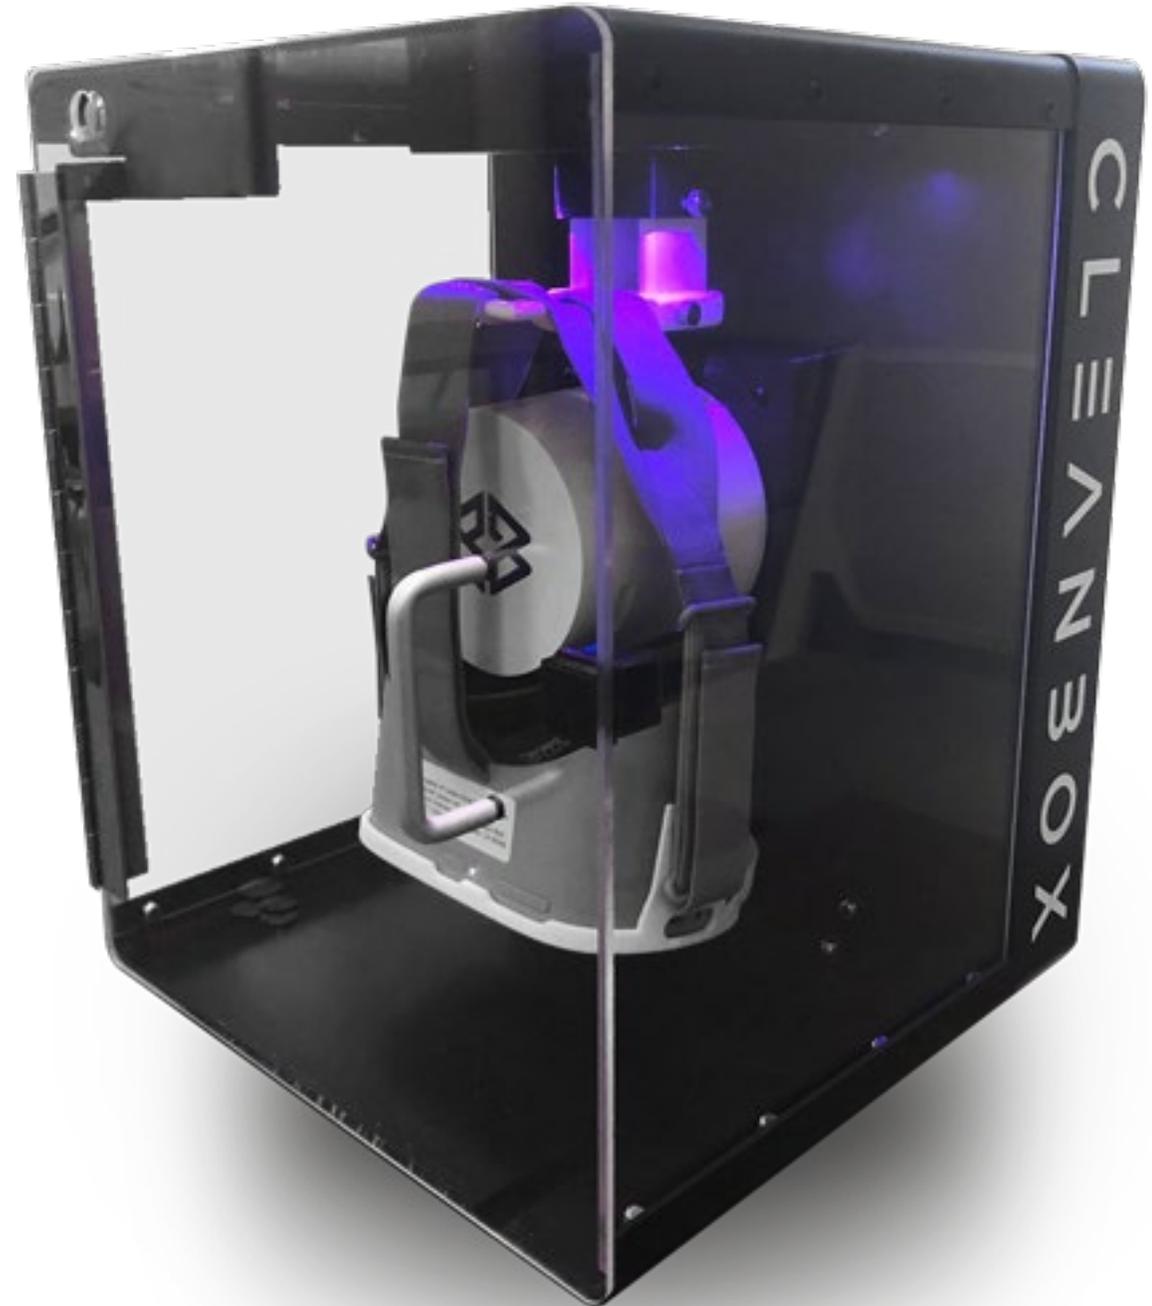

THE HYGIENIC SOLUTION

Cleanbox is a premium and eco-friendly smart tech hygiene solution for the **decontamination of virtual, augmented and mixed reality headsets** and other mass use hardware.

Cleanbox eliminates the need for heat or toxins in the decontamination process, protecting electronics.

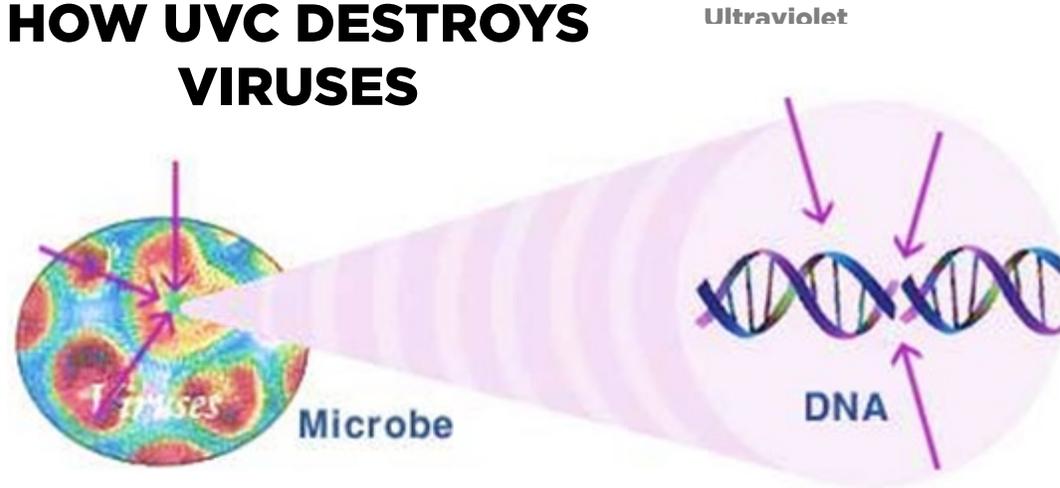

Cleanbox is independently lab tested to kill 99.99+% of bacteria, virus and fungi in one minute and can treat any number of hardware from 1 to 100 or more.

Cleanbox products are built with ISO 9001 certified materials, assembled in an FDA-certified facility, and meet all CE and FCC regulations.

The Science

HOW UVC DESTROYS VIRUSES

ABOUT UVC LIGHT

Radiation in the UVC range of 250-280 nm destroys bacteria, viruses and other microbes by attacking their DNA (Cleanbox uses 265 nm). UVC light is able to penetrate the cells of microorganisms and disrupt the structure of the DNA molecules. It does this by destroying the genetic information inside the DNA. The microorganisms in turn, lose their reproductive capability, rendering them inactive and no longer harmful.

REGARDING THE CORONAVIRUS

UVC light has been repeatedly proven to be effective against all types of bacteria, viruses and fungi. There have been many tests against SARS and MERS which are also corona viruses, and UVC was proven to be effective against those pathogens.

There are no indicators at this time that COVID-19 will be any more resistant against UVC than SARS or MERS.

It is important to remember the coronavirus is otherwise typically known to be one of the organisms responsible for the common cold, which is rapidly obliterated with UVC light. While this novel strain may be more virulent within the human body there's no reason to suspect that it will be less susceptible to standard methods of decontamination and sterilization including chemical agents and UVC light.

IAAPA cancels China event amid Coronavirus fears

February 12, 2020
by Dan Snook

IAAPA has decided to cancel its Meet IAAPA event in the Chinese capital Beijing scheduled for March 22.

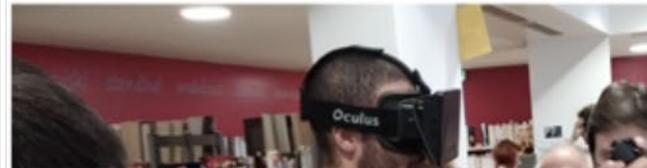

As the world continues to respond to the threat of the coronavirus, now officially named Covid-19, the effects on the amusement and attractions industry grows and the trade organisation's Chinese event is the latest victim.

"Out of an abundance of caution and given travel restrictions in the region, the Meet IAAPA event in Beijing, China, has been cancelled," read a statement. "We are closely monitoring other events in the Asia-Pacific region."

VR headsets blamed for spread of eye herpes

Acanthamoeba Keratitis Ongoing in Iowa

By Ethan Covey

An outbreak of Acanthamoeba keratitis (AK) has been resulting in levels of diagnosis far above the annual States, which is estimated to be one to two new cases wearers per year.

A rare, severe corneal infection, AK can result in pain (Mortal Wkly Rep 2019;68:448-449).

is one of the most challenging ocular diseases to treat medically and surgically" commented Mark A. Greiner.

Medical Experts Claim Wuhan Virus May Be Transmitted Through Your Eyes Or By Touch Alone

Published 2 weeks ago on January 31, 2020
By Chee Kin

MacBook

CURRENT EFFORTS ARE NOT ENOUGH

WIPES DON'T WORK

Here's Why:

Although wipes are better than nothing, It takes over 2 minutes of a surface being wet to disinfect, and the alcohol causes the wipe to dry much faster than that.

Plus wipes don't work on fabrics, Velcro, foam, or rubber.

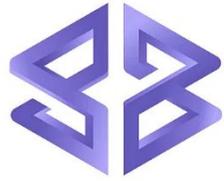

And can also damage lenses & cause allergies.

THESE DON'T DECONTAMINATE

Plus:

Not cost effective & doesn't solve sweat issue

CLEANBOX™

THE SOLUTION

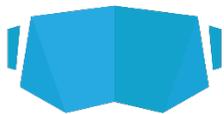

ONLY ONE ON THE MARKET

1. Ultraviolet C grade (**medical grade**) directional lighting gets into all crevices where **bacteria, virus, and fungi hide** – unreachable by a wipe! **99.99+% effective in just 1 minute.**
2. Super-hydrophobic nano coating helps prevent moisture from permeating headsets and the buildup of oils and grime.
3. Directional high velocity air **dries the headsets** and removes any remaining detritus.

KEY BENEFITS

- ✓ Accommodates all major VR/AR/XR headsets on the market.
- ✓ Built to last! 10,000 UVC light hours. **Years of reliability.**
- ✓ Cost Effective: Wipes can run about \$5 a day - \$1000+ a year – AND DON'T WORK.
- ✓ **Improves Productivity:** Minimizes employee workload.
- ✓ 100% Effective: **Eliminates human error** and effectively decontaminates every time in 1 minute.
- ✓ **Mitigates risk** for brands & enhances the experience.

ASSOCIATION
MEMBER

CX1

Cleanbox for ONE
tethered or untethered VR/AR/XR HMD

Cleaned and dried in a 1-minute cycle

Dimensions:
15.5" high x 12.5" wide by x 12.5" deep - 11.5 lbs.

Locking Option Available.

Battery Pack Option Available.

Power: 110V - 240V

CX4

Cleanbox for FOUR
tethered or untethered VR/AR/XR HMD

Cleaned and dried in a 1-minute cycle

Dimensions:

49" long x 15.5" tall x 12.5" deep. - 34 lbs.

Includes Fast Charging USB

Locking Option Available.

Power: 110V - 240V

CX2

Cleanbox for TWO
tethered or untethered VR/AR/XR HMD

Cleaned and dried in a 1-minute cycle

Dimensions:

15.5" x 25.5" x 12.5" – Weight: 18 lbs.

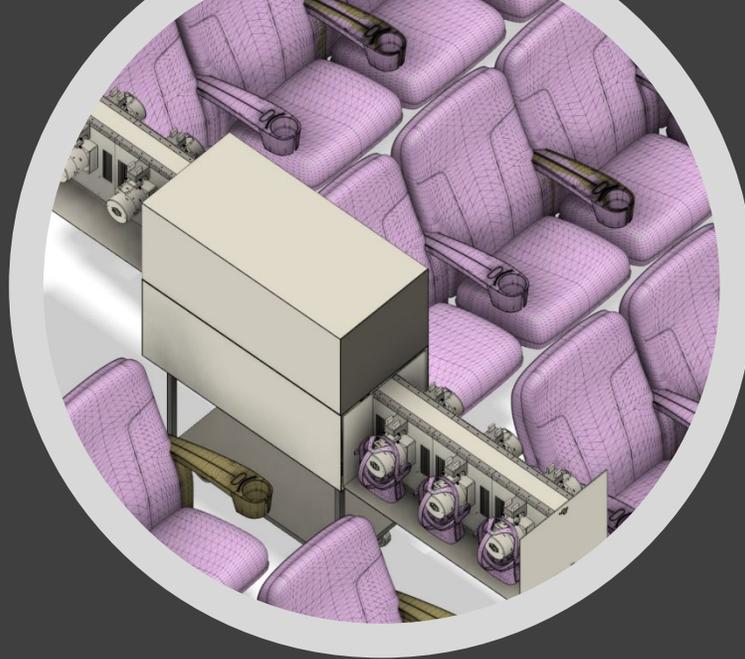

Includes Fast Charging USB

Locking Option Available.

Power: 110V - 240V

BUILD CLEANBOX INTO YOUR SPACE

AS DONE AT HYPERSPACE
Pacific Science Center

“As far as we have seen in our CRM system, approx 59% of our customers respond well to the fact that we use the Cleanbox after every use, and have returned to play again after seeing the cleaning process in person. I have been there personally to witness this, as I am there in store every single day since we’ve opened. A lot of our reviews mention the fact that we are hygiene friendly.” -Sushant Srikrish. Owner.

“ At Intuitive Surgical we use Cleanbox to give our developers, research partners, and users peace of mind as they work with us.

The system is quick and easy to use, and our own testing has shown it to be effective at reducing the presence of bacteria on headsets.

It's a unique and timely product. ”

– Simon DiMaio, Director of Applied Research

INTUITIVE
SURGICAL®

“ Since deciding to use Cleanbox in our facility, **our customers concerns about the cleanliness of the VR headsets after a workout have been completely alleviated.** Now they show up for their exercise session and know they are putting on a clean and dry HMD. ”

Kayla Abeyta - Black Box VR GYM

“ We had a successful workout of the Cleanbox at the Inside Out Film Festival where Cleanbox was used to support our exhibition of works 'Queering VR' in the Starz Festival Lounge

It was easy to use for the staff and support team and provided the visitors with a quality VR experience. ”

David Plant
Executive Director

CLEANBOX

**“We love Cleanbox
and train our staff to
let customers know
we take care of
hygiene first, and
customers love this
and feel safe”**
